EXPERIENCE

Mobile Developer

PT Bank Negara Indonesia (Persero), Tbk. ↗
11/2024 - Present

As a Mobile Developer at BNI, I develop Flutter-based applications for Android and iOS, integrating them with RESTful APIs for real-time data synchronization. I also utilize Firebase to enhance performance and security while applying best practices in state management, performance optimization, and UX/UI improvements to ensure a stable and responsive application.

Mobile Application Developer

PT Coolva Teknologi Indonesia
01/2023 - Present

As a Mobile Application Developer at PT Coolva Teknologi Indonesia, I have been involved in various software development projects for clients. Here are some of the key projects I contributed to:

- Sewanue (Vav Technologies Indonesia): A nearby sports field booking and rental application. In this project, my contributions included managing all aspects of the project from planning to deployment, including authentication, order processing, user reviews, and integrating Firebase as the backend.
- Omega (PT Trans Indojek Mahasiswa): Omega (Ojek Mahasiswa Gesit Aman), an online motorcycle taxi application specifically for students. In this project, my contributions involved optimizing trip management algorithms, financial transactions, and real-time database streaming while implementing real-time communication features and collaborating with cross-functional teams to ensure high performance and an optimal user experience.

Software Developer

Universitas Lampung
01/2024 - 06/2024

Developed several applications for Universitas Lampung:

- UnilaHub: Developed public and research applications, e-commerce platforms, and integrated them with RESTful APIs, notification services, and payment gateways.
- OneData Unila: Designed and developed an academic information portal, taking complete responsibility for feature implementation and API integration.

Assistant Lecturer (Various Courses)

Universitas Lampung
01/2022 - 12/2023

Taught Web Programming, Object-Oriented Programming, and Structured Programming, providing practical coding sessions and mentoring on advanced programming concepts.

SKILLS

Mobile Application Development

Flutter

Dart

Kotlin

Firebase

Object Oriented Programming

Functional Programming

RESTful APIs

Back-End Development

PHP

Laravel

SQL Database

NoSQL Database

Git

EDUCATION

Computer Science

Universitas Lampung

09/2020 - 09/2024

Bachelor of Computer Science - BCS

- GPA : 3,91
- My achievements are obtaining a patent certificate for then OneData Unila application and developing the UnilaHub application

CERTIFICATES

Java Foundation

Oracle Academy

Present

Completed Oracle Academy's Java Foundations course, gaining core Java programming skills.
